

### **REMARKS/ARGUMENTS**

Applicant has carefully reviewed and considered the Restriction Requirement mailed on November 21, 2005, and the references cited therewith.

No claims are amended, canceled, or added; as a result, claims 1-44 are now pending in this application.

#### **Restriction/Election**

Restriction to one of the following inventions was required under 35 U.S.C. 121:

- I. Claims 1-30, drawn to a system for building project, classified in class 710, subclass 305.
- II. Claims 31-34, drawn to apparatus of a computer medium, classified in class 710, subclass 100.
- III. Claims 35-44, drawn to apparatus of a multiple unit, classified in class 52, subclass 79.2.

Applicant provisionally elects, with traverse, to prosecute the invention of Group III (viz., claims 35-44). The restriction requirement is traversed, at least in part, on the basis that Restriction Requirements are optional in all cases. MPEP 803. As the section further states, if the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits.

Additionally, it is respectfully submitted that Applicant, as a small entity, should not be required to incur the additional costs associated with filing of multiple divisional applications in order to obtain protection of the claimed subject matter.

Accordingly, Applicant respectfully requests reconsideration and withdrawal of the Restriction Requirement, and that claims 1-44 of the present application be examined on the merits together.

### CONCLUSION

Applicant respectfully submits that the claims are in condition for allowance and notification to that effect is earnestly requested. The Examiner is invited to telephone Applicant's attorney at (612) 236-0121 to facilitate prosecution of this matter.
